We are continuing to expand our product suites to provide a recruiting platform that boosts your team's productivity and hiring speed.

HEAR WHAT OUR CUSTOMERS ARE SAYING

" The scheduling feature alone saves me countless hours of back-and-forth emailing, calling and texting with students Our managers and interviewers have really appreciated the side-by-side feature within the interview interface that allows them to see the resume and evaluation form at the same time. "

Ryan Hawkin, *Senior Recruiter at Sensata*

" I love it, I love it so much! With Rakuna, I handled 100+ candidates all on my own at the event and everything still went really smoothly. I can't imagine not having this app with me at events. I'll definitely need this app when I go out to recruit. "

Nicole Mincin, *University Recruiter at Applied Materials*
